Company Profile

JHorse, located in Anping Hebei Province China, is dedicated to the customization of various horse barn building materials. Since established in 2006 we have worked with hundreds of commercial and private facilities across the world including personal horse barns, commercial boarding stables, equine centers, clubs etc. Customers can always buy high quality products at competitive price from JHorse.

Our advantages

- 01 Specialized technician and designer team
- 02 CAD and 3D drawing to show all the details before production
- 03 Online video quality checking during production
- 04 Installation instruction after sales

A photograph of two brown horses with white facial markings standing on a gravel path. The horse in the foreground is looking directly at the camera, while the one behind it is looking down. The background features rolling hills under a cloudy sky.

Optional Accessories

Automatic Water Bowl

Ⓐ Cast Iron Water Bowl

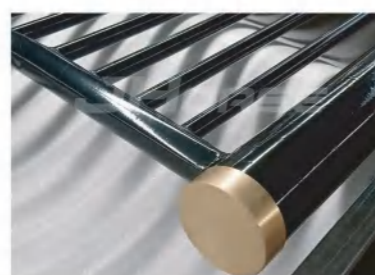

Ⓐ Stainless Steel Water Bowl

Decoration Caps

Ⓐ Ball Caps

Ⓐ Flat Caps

Swivel Feeder

Ⓐ Aluminum Swivel Feeder

Ⓐ Hot-dip Galvanized Swivel Feeder

Ⓐ Stainless Steel Swivel Feeder

Hay Rack

Ⓐ Hanging Hay Rack

Ⓐ Large Hay Rack

Details of Fronts

Adjustable Stainless Steel Hinge

High quality adjustable hinges are used on Euro Style fronts or stall doors. They are made of stainless steel for long-term performance and maintenance.

Latch System for Hinged Doors

A Spring loaded plunger latch is applied in Euro-style fronts. It includes a brass striker plate that prevents the plunger from scratching the posts.

Hot-dip Galvanizing Steel Frame

We recommend hot-dip galvanizing for customers in coastal areas that suffer continuous salt and moisture exposure because it will protect the metal frame well from rust. The welded steel frame will be cleaned and polished before dipped into a bath of molten zinc, which ensures both the smooth surface and super zinc adhesion.

Powder Coating on Galvanized Pipes

Longer life to your stall panels will be ensured through the application of Architectural Grade Powder Coat Finish with UV inhibitors which helps the product resist rust, scratches and fading. The bottom portion of the frame is welded from galvanized steel to provide maximum resistance to rust and corrosion.

Bamboo with Groove and Tongue

Hardwood with groove and tongue not easy to bend or deform
available thickness: 20mm, 28mm, 32mm, 38mm

Pine with Groove and Tongue

Durable lumber with groove and tongue not easy to bend or deform
available thickness: 25mm, 30mm, 40mm

Partitions

- **Size**

Height: 2.2m(7.2ft)

Length: 3m/3.5m/4m, 10ft/12ft/14ft...(or custom made to order)

- **Surface treatment**

1. Powder Coating on pre-galvanized steel pipes
(Any color can be customized.)
2. Hot dip galvanizing

Dividers or Backs

- **Infill**

1. Bamboo: thickness 20/28/32/38mm
2. Pine: thickness 25/30/40mm
3. Plastic Wood/plywood/others
4. Bars and Wire Mesh

Dutch Door

• Size

Height: 2.2m(7.2ft), 2.4m(7.87ft) built to order
Width: 1.2m(3.94ft), 1.3m(4.27ft)

• Surface treatment

1. Powder Coating on Pre-galvanized Pipes
(Any color can be customized.)
2. Hot dip galvanizing

• Infill

1. Bamboo: thickness 20mm, 28mm
2. Pine: thickness 25mm, 30mm
3. Steel Grid or Wire Mesh

• Glass Options

Insulated glass, Double Pane, Tempered Glass

Windows

• Size

Single window: 1*1m, 1.1*1.1m, 1.2*1.1m...Built to order

Double window: 1*2m... Built to order

• Surface treatment

1. Powder Coating on Pre-galvanized Pipes
(Any color can be customized.)
2. Hot dip galvanizing

• Infill

1. Bamboo: thickness 20mm,28mm
2. Pine: thickness 25mm,30mm
3. Steel Grid with V-yoke
4. Glass (Insulated glass,double pane,tempered glass)

*RUBBER PAVER
RUBBER MATS*

■ Rubber Bricks

- **Thickness**

15 mm to 45 mm

- **Size**

8 in. x 6 3/8 in. x 4 5/8 in.
(200 x 160/115 mm)

- **Advantages**

1. Enhances your property value
2. Reduces unhealthy dust levels
3. Non-slip surface allows your horse to walk securely and comfortably
4. Waterproof and water permeable for quick drainage

- **Color**

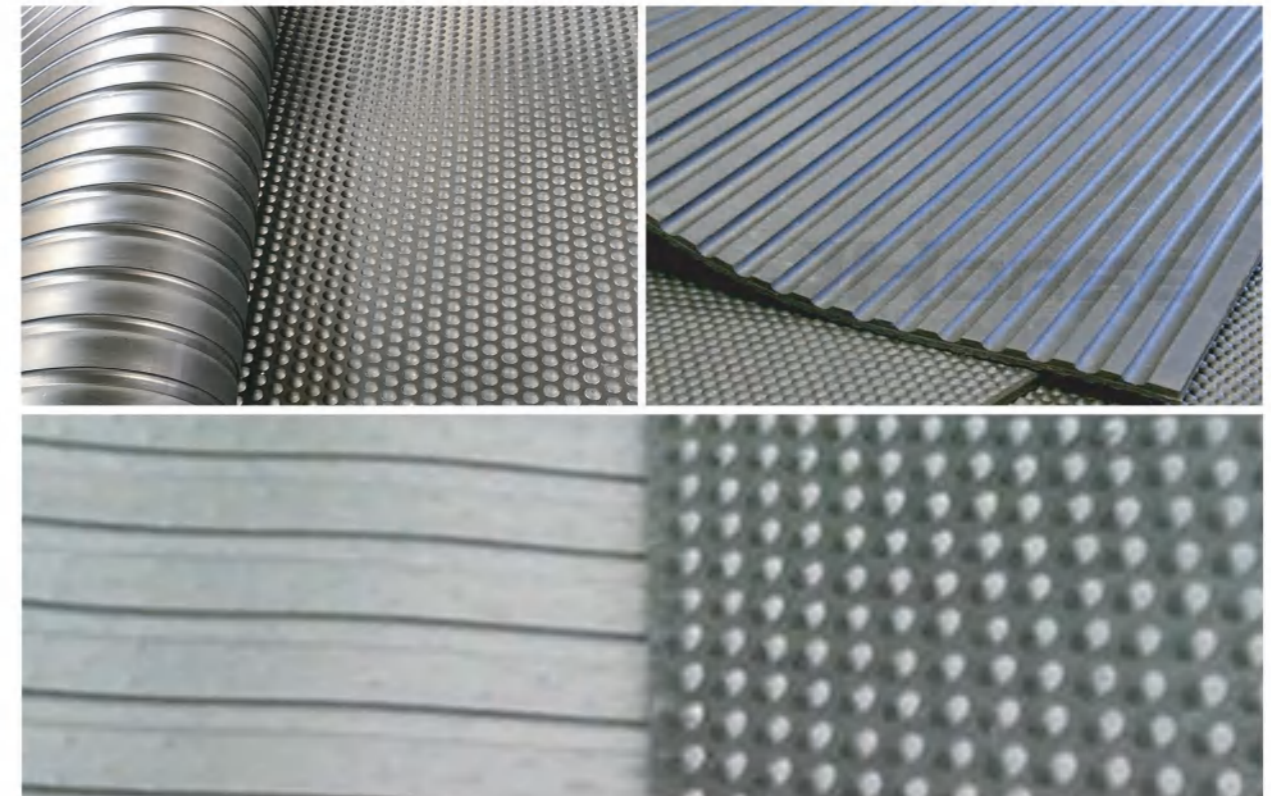

Red, Black, Green

- **Material**

100% Recycled Rubber

■ Rubber Mat

Button-and-Groove Pattern Rubber Mats

- **Specification**

Size: 4ft x 6ft, 1*2m, 1*1m

Thickness: 10mm, 12mm, 15mm(5/8"), 17mm, 20mm

Materials: Reclaimed Rubber

Color: Black

- **Benefits**

1. Button Surface helps prevent slips and falls for people and horses.
2. Raised Channels on the Underside helps liquids drain through the mat, making the cleaning process far easier for the owner.
3. Ideally suited as floor protector mats
4. Reclaimed rubber material is vulcanized for extra strength
5. Fast "bedding time" makes these eco floors ideal for animal care

ARENA MATERIALS AND EQUIPMENT

Fibre Silk and Geo Textile

Class A Footing for Horse Riding or Jumping Arena

Why Textile and Fibre

1. Providing Stability to the Sand
2. Act as a shock absorber
3. Help Prevent the sand from Compacting
4. Retain Moisture

Horse Riding Arena Leveler

- **Length**

1.2m,1.8m,2.2m,2.4m

- **Tank Press Roll**

Optional

- **Connect Way**

ATV or 3 points

- **Color**

Red,Silver,black...
